

# Animal & Veterinary Flooring

LOW ODOR / LOW VOC

## PRODUCT DESCRIPTION

**SEAL-KRETE® Animal & Veterinary Flooring Systems** utilize the latest development in coating technology. Our Animal & Veterinary Flooring Systems are impermeable and resistant to animal waste, odor absorption, staining and the harsh cleaners used for sanitation. Our systems provide long-term solutions and the best possible environment for the animals. Our systems provide a sanitary environment for animal shelters, animal care facilities, kennels, and veterinary hospitals. Our systems are durable, easy to maintain and clean, and will save the facility money by eliminating the need for constant repaints and flooring maintenance.

## FEATURES AND BENEFITS:

- Antimicrobial flooring
- Seamless
- Excellent chemical, solvents and alkali-resistant
- Easy-to-maintain
- Impermeable to animal waste, floors will not absorb odors
- Customizable slip-resistant floor finish options
- Withstands exposure to harsh disinfectants and sanitizers
- Solvent-resistant and betadine-resistant topcoat available
- Abrasion, scratch, and puncture-resistant

Animal Hospital - Epoxy-Shell 1000 Full Chip Broadcast - Black Marble

Kennel - Epoxy-Shell 1000 Full Chip Broadcast - Dark Earth

## CUSTOM SYSTEMS

Our Animal and Veterinary Flooring Systems are custom designed to meet your specific facility budget and use requirements.

## WALL SYSTEMS

Our two-component epoxy/urethane wall systems can be applied over concrete, block, wood, drywall, and cement board. Our Wall-Systems are chemical and solvent resistant and can withstand constant cleaning and power washing. Our systems are seamless, eliminating joints that harbor moisture that could lead to bacteria growth.

- Impact Resistant
- Antimicrobial
- Seamless
- Easy to Maintain

Kennel - Epoxy wall system Epoxy Quartz Floor - Slate

## MAINTENANCE AND CARE

SEAL-KRETE Industrial Flooring Systems are monolithic, making them easier to clean because dirt and contaminants remain on the surface. For maintenance / care recommendations, refer to application guide or visit [hp.seal-krete.com](http://hp.seal-krete.com).
